PRESS RELEASE

For immediate release

August 14, 2018

Regional Sky announces the Hiatus of Air Service from Wilkes-Barre Scranton International Airport to Pittsburgh International Airport effective 9/5/2018.

Our business model was designed using corporate charter aircraft to deliver passengers to and from Wilkes-Barre/Scranton International and Pittsburgh International Airport. Even though we have had many satisfied and repeat customers; we believe a different airline model is required to meet the level of enplanements required to maintain the service.

We appreciate all of our customers and their feedback during the service.

“We are dedicated to the success of the Wilkes-Barre/Scranton International Airport and look forward to serving you well into the future!” Commented Jim Gallagher President and CEO of Regional Sky.
